

Supplemental Application for a Planned Development & Planned Development Amendment

Project Address _____ PD # _____

A Planned Development is a detailed document that sets guidelines for long-term development on a large site over a specified period of time. Planned Developments include text describing the proposed project and phasing; site plans with details of all development on the project site; and building elevations.

SUBMITTAL REQUIREMENTS - The submittal requirements for a Planned Development (PD) are listed on the *Submittal Requirements Checklist*. In some cases a model will be required to clarify the relationship between the proposed development to the existing site and surrounding neighborhood. It is important to review the submittal requirements with a Planner to establish the specific materials necessary to submit with your application.

Please respond thoroughly to the directives below. Use additional sheets if necessary.

- 1) Describe how the Planned Development would be consistent with the objectives and policies of the General Plan. (Copies of the General Plan are available in the City's libraries and at the Permit Center, 175 North Garfield Avenue, and on the City's website.)

- 2) If applicable to the type of development proposed, the following specific information is required.

A. Historical Resources Inventory:

- ◆ Provide a Historical Resource Inventory of existing structures (contact Design & Historic Preservation Section staff);
- ◆ Building significance ratings if a Historical Resource Inventory is not required.

Supplemental Application for a
**Planned Development &
Planned Development Amendment**

Project Address _____ MDP # _____

B. Traffic/Parking Analysis:

The traffic/parking analysis should reflect all phases of the proposed project. The following issues should be addressed in the traffic/parking analysis. (Contact Public Works and Transportation Department staff for further information.)

- ◆ Peak-hour parking at the site;
- ◆ Number of employees/guests/customers, etc.;
- ◆ Existing parking conditions (number of spaces and location of spaces on site, including number of compact, regular and tandem parking spaces);
- ◆ Proposed parking space configuration, based on the City of Pasadena Municipal Code (17.68 - Off-Street Parking and Loading);
- ◆ Transportation Demand Management Program, if required. (Check with the City of Pasadena Public Works and Transportation Department.)
- ◆ A proposed circulation plan showing site egress and ingress;
- ◆ Projections of traffic volume within the plan area;
- ◆ Projections of increased traffic volumes to local streets.

C. Employment and Hours of Operation:

- ◆ Number of employees at each phase and calculated for each use;
- ◆ Existing uses in each building and uses proposed;
- ◆ Hours of operation for existing uses and proposed.

D. Land Use Analysis:

- ◆ Provide a plan indicating the proposed pattern of land use, with acreage and residential density computations;
- ◆ The proposed street and lot patterns;
- ◆ A market analysis justifying commercial development proposals.
