OFFICE OF THE CITY MANAGER

March 5, 2015

To the Honorable City Council
of the City of Pasadena

Mayor and Councilmembers:

## WEEKLY NEWSLETTER

### 1. SR 710 North Study Update:

Last week I reported that the SR 710 EIR/EIS was expected to be released last Friday. As of today, the EIR/EIS has not been released. Metro has not provided any specific release date but continues to say that it will come out soon. In the meantime, Metro has confirmed the two public hearing dates and locations where residents, business owners, community leaders and other stakeholder can provide their public comments regarding the five alternatives. The first public hearing will be on Saturday, April 11th at the Rosco C. Inglass Auditorium at East Los Angeles College campus. The second public hearing will be on Tuesday, April 14th at the Pasadena Convention Center. I will continue to keep you posted through this newsletter on the status of the study.

### 2. Perchlorate Announcement:

The California Office of Environmental Health Hazard Assessment ("OEHHA") last month lowered their public health goal ("PHG") for perchlorate from 6 parts per billion ("ppb") to 1 ppb. This announcement does not negatively impact the safety of Pasadena's drinking water. Currently the Maximum Contaminant Level ("MCL") is 6 ppb, which is the legally-enforced drinking water safety level set by the State Water Resources Control Board's Division of Drinking Water Programs ("DDWP"). Due to PWP's ongoing water quality activities and programs, Pasadena's water is below the MCL threshold and meets all state and federal drinking water standards. The OEHHA public health goal is a non-enforceable guideline based on theoretical risk assessments of various contaminant levels, all of which do not pose a human health risk. The goal also does not factor in the ability of water providers to both identify and treat a particular contaminant.

*City Hall*
*100 N. Garfield Avenue, Room 231*
*Mailing Address: P.O. Box 7115 · Pasadena 91109-7215*
*(626) 744-7371 · Fax (626) 744-4774*
*jgutierrez@cityofpasadena.net*

According to Phyllis Currie, General Manager, PWP draws 40 percent of its water supply from local groundwater in the Raymond Basin. PWP has three facilities that assist with testing for and treating any perchlorate detected in the basin. The Monk Hill facility removes perchlorate while the Sunset and Jones reservoirs blend groundwater with imported water from the Metropolitan Water District ("MWD"). PWP water quality experts continually monitor and test for contaminates to ensure that the water is safe for drinking. In the future, the DDWP may choose to re-asses the MCL to determine if it should remain at 6 ppb or be lowered to anywhere between 6 and 1 ppb. The re-assessment would include a cost-benefit analysis, and take into consideration the fiscal impact that a more aggressive level might have on water providers and limitations of existing water quality technology.

For more information about PWP water quality activities or to download a copy of the most recent PWP Consumer Confidence Report on Water Quality visit www.PWPweb/.com/WaterQuality. Customers who have questions can call PWP's Water Quality Manager at (626) 744-3704 in the morning or (626) 744-7315 afternoon.

**3. Update on the Transition of El Centro de Accíon Programs and Services:**

After the closure of El Centro de Accíon was announced, several City and Pasadena Unified School District staff met with the Director of El Centro de Accíon Center to discuss the programs and activities offered and how other providers might be able to partner up to serve as a bridge for continued services. Staff also met with program participants. Currently the majority of services offered are for Senior Citizens and Adults. These services are offered at Villa-Parke and primarily include ESL, Citizenship Classes, Case Management and the administration of the transportation voucher program. These services are partnered with programs offered by the Human Services and Recreation Department at Villa-Parke, along with other providers, which include a lunch program, adult fitness and health workshops. As of March 2, 2015, the former Director of El Centro has transitioned to the Villa-Parke Recreation Center under contract to continue these valuable services to 30-40 Pasadena residents Monday thru Friday from 9:00 to 11:30 a.m. The attached memorandum from Mercy Santoro, Director of Human Services & Recreation provides additional detailed information on services offered by El Centro de Accíon and the transition plan that is in effect.

**4. Heritage Square Senior Apartments Groundbreaking Event:**

A groundbreaking event will take place on March 13, 2015 at noon for the Heritage Square Senior Apartments located at the northeast corner of Fair Oaks Ave. and Orange Grove Blvd. Anyone wishing to attend can RSVP at rsvp@bridgehousing.com.

The developer is the nonprofit, Bridge Housing. According to William Huang, Director of Housing and Career Services, the project will consist of 70 units for very low income seniors. The City will retain ownership of the land and lease it to Bridge Housing. The City has committed $1.4 million and 69 Project Based Section 8 Vouchers to the project to ensure the rents will be affordable to very low income seniors. The site is in Council District 3 represented by Councilmember John J. Kennedy.

**5. CDBG Funded Sidewalk Replacement Project in High Pedestrian Corridors:**

On June 9, 2014, the City Council approved $70,000 in Community Development Block Grant (CDBG) funding for sidewalk replacement in Northwest Pasadena. The anticipated target areas are Los Robles Avenue from Maple Avenue to Orange Grove Boulevard; Los Robles Avenue from Mountain Street to Penn Street; and Mountain Street from Sunset Avenue to Lake Avenue. The Department of Public Works will complete as many locations as possible with the allocated funding. The work will begin on Los Robles Avenue.

The Department of Public Works Concrete Crew and MASH Workers will begin concrete replacement work on Los Robles Avenue (attached diagram) beginning on Monday, March 9, 2015. During the project, temporary "no parking" signs will be posted a minimum of 48-hours in advance where parking restrictions are needed. Businesses and residents will receive additional information if their sidewalk or driveway will be directly affected by this project. The Department will work with businesses and residents to ensure driveway access. Work hours are Monday through Friday, from 7:00 a.m. to 3:00 p.m. and may be adjusted to accommodate traffic and pedestrian demands.

The City of Pasadena will do its best to minimize disruption caused by the concrete restoration work. A Crew Supervisor from the Department of Public Works, wearing a safety vest and City Identification, will be present on the job site to answer questions or provide assistance as needed. For further questions, please contact the Department of Public Works at (626) 744-7311.

**6. Spring ArtNight Pasadena, 2015:**

Vincent Bertoni, Director of Planning & Community Development is pleased to announce that ArtNight Pasadena returns Friday, March 13! Past recipient of the "Best Cultural Festival" award from readers of the Pasadena Weekly, *ArtNight Pasadena* is a signature cultural tourism event that is produced by the Cultural Affairs division in collaboration with the partnering organizations. Spring *ArtNight* will include 16 participating venues, plus the City Hall Hub, filled with lively art, dance, music and other performances located throughout the City. The attached memorandum from Mr. Bertoni provides additional detailed information on this free evening of art, music and entertainment.

**7. Brush Away Hazardous Vegetation:**

The Pasadena Fire Department will be conducting annual fire inspections in accordance with the requirements of the 2013 California Fire Code and Pasadena's Hazardous Vegetation Ordinance. The Hazardous Vegetation Inspection Program focuses on safeguarding properties and the surrounding community in the event of a wildfire. The attached correspondence and Brush Away Hazardous Vegetation Brochure from Fire Chief Bertral Washington provided detailed information to property owners of the upcoming inspection to be conducted by the Fire Department on or after April 1, 2015.

**8. New Pedestrian and Bicycle Coordinator Position:**

In recognition of the need to raise the awareness of active transportation in the planning, design and implementation of Complete Streets, the Department of Transportation has developed a Pedestrian

and Bicycle Coordinator position within the Complete Streets Division. The mission of Complete Streets is to create safe and inviting streets for all who drive, walk, bicycle and use transit. This position is responsible for delivering bicycle, pedestrian, and traffic calming projects on time and within budget in conjunction with other departments, including Public Works and Planning and Community Development. These projects involve a heavy emphasis on teamwork and consensus-building within the City, with stakeholders, and with elected officials, as well as a thorough an understanding of how bicycle and pedestrian projects affect transit, accessibility, and traffic operations. Under administrative direction, the Coordinator plans, organizes, directs and controls all or part of highly complex engineering projects from concept through design and construction.

Please join Fred Dock, Director of Transportation in congratulating Rich Dilluvio, currently a Senior Planner in the Complete Streets Division, on his appointment to the Pedestrian and Bicycle Coordinator position.

**9. San Gabriel Valley Mobility Matrix:**

In February 2014, the Los Angeles County Metropolitan Transportation Authority (Metro) Board approved preparation of Mobility Matrices for each of the subregional councils. For the purposes of the Mobility Matrix, cities with membership in two subregions selected one subregion in which to participate. As such Pasadena is included in the San Gabriel Valley Council of Government's (SGVCOG).

The San Gabriel Valley Mobility Matrix, along with concurrent efforts in other Metro subregions, includes the development of subregional goals and objectives to guide future transportation investments, an assessment of baseline transportation system conditions to identify critical needs and deficiencies, and an initial screening of projects and programs based on their potential to address subregional objectives and countywide performance themes.

The Mobility Matrix is intended to serve as a starting point for the update of the Metro Long-Range Transportation Plan (LRTP) currently scheduled for adoption in 2017 and will likely lead to a set of projects and programs to include in the potential 2016 transportation sales tax ballot measure (commonly referred to as Measure $R^2$). I have attached a memorandum from Frederick Dock, Director of Transportation which provides additional detailed information on projects and next steps.

**10. Computer Labs & Wi-Fi Web Page and Information:**

To improve access to important services for the benefit of Pasadena residents and students, Mercy Santoro, Director of Human Services & Recreation is pleased to announce the Department of Human Services and Recreation has launched a centralized website on Wi-Fi and Computer Labs throughout the community. Information for teens, adults, seniors, and those looking for employment is now located in a centralized web-page with information which is located at http://cityofpasadena.net/labs-WiFi/. In addition, residents can learn more about the location of these services and additional information by visiting the interactive Map My Neighborhood at http://ww4.cityofpasadena.net/myneighborhood/. For a list of Computer Labs & Wi-Fi, please see the

attached or for more detailed information, please contact Luis Gomez, Human Services and Recreation Department Analyst at 744-7517 or at lgomez@cityofpasadena.net.

Respectfully Submitted,

**JULIE A. GUTIERREZ**
Assistant City Manager

# MEMORANDUM – CITY OF PASADENA
## Human Services and Recreation Department

**DATE:** March 5, 2015

**TO:** Michael Beck, City Manager

**FROM:** Mercy Santoro, Director – Human Services & Recreation

**Subject:** **Update on the Transition of El Centro de Accíon Programs and Services**

After the closure of El Centro de Accíon was announced, several City and Pasadena Unified School District staff met with the Director of El Centro de Accíon Center to discuss the programs and activities offered and how other providers might be able to partner up to serve as a bridge for continued services. Staff also met with program participants. Currently the majority of services offered are for Senior Citizens and Adults. These services are offered at Villa-Parke and primarily include ESL, Citizenship Classes, Case Management and the administration of the transportation voucher program. These services are partnered with programs offered by Human Services and Recreation Department at Villa-Parke, along with other providers, which include a lunch program, adult fitness and health workshops. As of March 2, 2015, the former Director of El Centro has transitioned to the Villa-Parke Recreation Center under contract to continue these valuable services to 30-40 Pasadena residents Monday thru Friday from 9:00 to 11:30 a.m. Below are the services offered by El Centro and the transition plan that is in effect:

| Service Provided by El Centro | Location | Transition Plan | Location |
|---|---|---|---|
| ESL and Citizenship Classes | Villa-Parke Community Center | Former Director Contracted to Continue Services | Villa-Parke Community Center |
| Transportation and Case Management | Villa-Parke Community Center | Former Director Contracted to Continue Services | Villa-Parke Community Center |
| After School Tutoring | Jefferson Elementary School | LEARNS and City After School Program | Jefferson Elementary School |
| Summer School Half Day Program (5-weeks) | Central Park | LEARNS Summer School and City Summer Programs | Franklin Elementary, City Day Camps and Teen Education Center |

Staff is working with Pasadena City College's Pasadena Area Consortium to introduce additional adult education classes at no cost beginning in May 2015 at Villa-Parke as a pilot site in the morning and evenings, which will complement the existing programs. These adult education classes are supported by a recent grant designed to increase levels of adult education in the area. It is anticipated these classes will expand to other locations over time.

The Human Services and Recreation Department is planning to bring programs and activities to Central Park that will be housed out of the building vacated by El Centro de Accíon and park. Further updates on this are forthcoming. For more information on the transition plan in effect, please contact Horace Wormely, Human Services and Recreation Deputy Director at 744-4724 or at hwormely@cityofpasadena.net.

# Please join us as we celebrate the groundbreaking of
# Heritage Square Senior Apartments

### Join Us for Festivities & Refreshments

Heritage Square Senior Apartments will be built in the city of Pasadena and will offer 70 one-bedroom units of affordable senior housing. The development concept is to create high-quality and welcoming senior housing that contextually blends into the existing neighborhood and addresses the needs of seniors and the community. This is created through pedestrian friendly development, attractive landscaped exteriors for both casual and organized social gatherings, and the potential future integration of residential and retail into one cohesive development.

# CDBG-FUNDED SIDEWALK REPLACEMENT PROJECT IN HIGH PEDESTRIAN CORRIDORS

**TO:** Michael J. Beck, City Manager

**FROM:** Vincent P. Bertoni, AICP, Director of the Planning & Community Development Department

**DATE:** March 5, 2015

**SUBJECT:** Spring ArtNight Pasadena, 2015

---

**ArtNight Pasadena, "Best Cultural Festival," Returns Friday, March 13!**

Past recipient of the "Best Cultural Festival" award from readers of the Pasadena Weekly, *ArtNight Pasadena* is a signature cultural tourism event that is produced by the Cultural Affairs division in collaboration with the partnering organizations. Spring *ArtNight* will include 16 participating venues, plus the City Hall Hub, filled with lively art, dance, music and other performances located throughout the City.

Spring *ArtNight Pasadena* includes many participatory and interactive events such as "Mystery History" at the Pasadena Museum of History, Side Street Project's soft sculpture project with Yarn Bombing LA at Muir High School, Light Bringer's "Altered States" at Day One, and Art Center College of Design's sound exhibition, "With Hidden Noise."

Returning to *ArtNight* after a several-year hiatus is the Pasadena Conservatory of Music which will present classical and multicultural performances at their newly renovated campus. Other musical venues include Muse/Ique at the Civic Auditorium plaza, Japanese Taiko drumming at Shumei Arts Council, and jazz at the Jackie Robinson Community Center and the Armory Center for the Arts.

The popular PUSD exhibition, "No Boundaries," proudly displays works from students K-12 while teens can experience music and printmaking at artWORKS. Families with young children can enjoy hands-on puppet making and performances at Kidspace Children's Museum. Exhibitions at the Offramp Gallery, USC Pacific Asia Museum, and Pasadena Museum of California Art will display visual artworks from diverse regions in Asia, mixed-media and contemporary California artists.

New this year is a "Selfie" contest! Audiences are invited to share their *ArtNight Pasadena* selfies on Facebook, Twitter and Instagram with the hashtag #artnightpas. The winner will receive a free entry for the Pasadena DooDah Parade.

*ArtNight Pasadena* is funded through the City's Arts and Culture Commission which also provides Mini-grants to small arts groups and individual artists to participate. Free shuttle buses provide transportation to each venue. Accessible bus transportation is available. A special promotion with Metro offers riders who present their "TAP" cards special gifts and

discounts at some sites. Each venue has Braille version of the *ArtNight* brochure and many venues will have food trucks on site. For more information about *ArtNight Pasadena,* visit: www.artnightpasadena.org (also in Spanish). Please contact Rochelle Branch, Cultural Affairs Manager, Planning & Community Development Department: (626) 744-7062 for more information.

OFFICE OF THE FIRE CHIEF

March 1, 2015

Dear Property Owner,

The Pasadena Fire Department conducts annual fire inspections in accordance with the requirements of the 2013 California Fire Code and Pasadena's Hazardous Vegetation Ordinance. Our Hazardous Vegetation Inspection Program focuses on safeguarding your property, and the surrounding community in the event of a wildfire in your neighborhood.

**Your property is located within the "Very High Fire Hazard Severity Zone". An inspection will be conducted by the Fire Department on or after April 1, 2015.**

The Pasadena Fire Department is happy to provide this initial inspection free of charge. However, if multiple inspections are required to confirm your property complies with the code, standard inspection fees will be applied.

Working together, we will take critical steps to assure compliance with safety standards which will help prevent liability challenges, loss of property, and potential tragedy. As an added benefit, many insurance carriers will accept the City's inspection report as proof of compliance that they may require before coverage is provided. If you need a copy of a report for insurance purposes, please contact your inspecting fire station. **Your inspecting fire company is Fire Station #32 at (626) 793-5117.**

Thank you in advance for your cooperation. The various requirements are listed on the enclosed brochure. We look forward to meeting you, and working with you to ensure that your property is in compliance with fire and life safety requirements.

Sincerely,

BERTRAL T. WASHINGTON
Fire Chief / Fire Marshal

BTW:AJB:pgp

Enclosure: Brush Away Hazardous Vegetation Brochure

U Drive/1WASHINGTON/03-2015 HazVegLetter.doc

*215 North Marengo Avenue, Suite 195 • Pasadena, CA 91101-1530*
*(626) 744-4675 • Fax (626) 585-9164*

## MESSAGE FROM THE FIRE MARSHAL

It is vital that Pasadena residents and property owners are vigilant against dry,poorly maintained vegetation which creates an extreme fire danger to their homes. Well-placed, well-maintained vegetation beautifies and controlserosion in residential neighborhoods. Poorly maintained vegetation can be a volatile fuel for fast-spreading wildfire – an invitation to disaster.

Property owners and residents can help protect their homes by joining in partnership with their neighbors and the City to ensure compliance with the City's Hazardous Vegetation Ordinance, outlined in this brochure. The goals are to maintain trees and vegetation that beautify and benefit a property, and to remove hazardous vegetation that provides a volatile fuel supply for wildfire. These preventive measures are very important for every resident of Pasadena, where the fire season is throughout the year.

The Pasadena Fire Department wants to work with you to create the most fire-safe community possible. Please join us by completing your brush clearance and ornamental vegetation maintenance. For additional information, please contact the Pasadena Fire Department at (626) 744-4668, or visit our website at www.cityofpasadena.net/Fire.

## EMERGENCY ENFORCEMENT

The Flammable Vegetation Ordinance provides that emergency action may be taken where the Fire Chief or designee determines that the condition of a structure or property poses an immediate hazard to life or property.

In such cases, efforts will be made to contact the property owner to request voluntary removal of the hazard at least 24 hours before abatement work is done.

**THE PASADENA FIRE DEPARTMENT CONDUCTS HAZARDOUS VEGETATION INSPECTIONS ANNUALLY BEGINNING ON APRIL 1ST**

### FIRE PREVENTION PARTNERSHIP

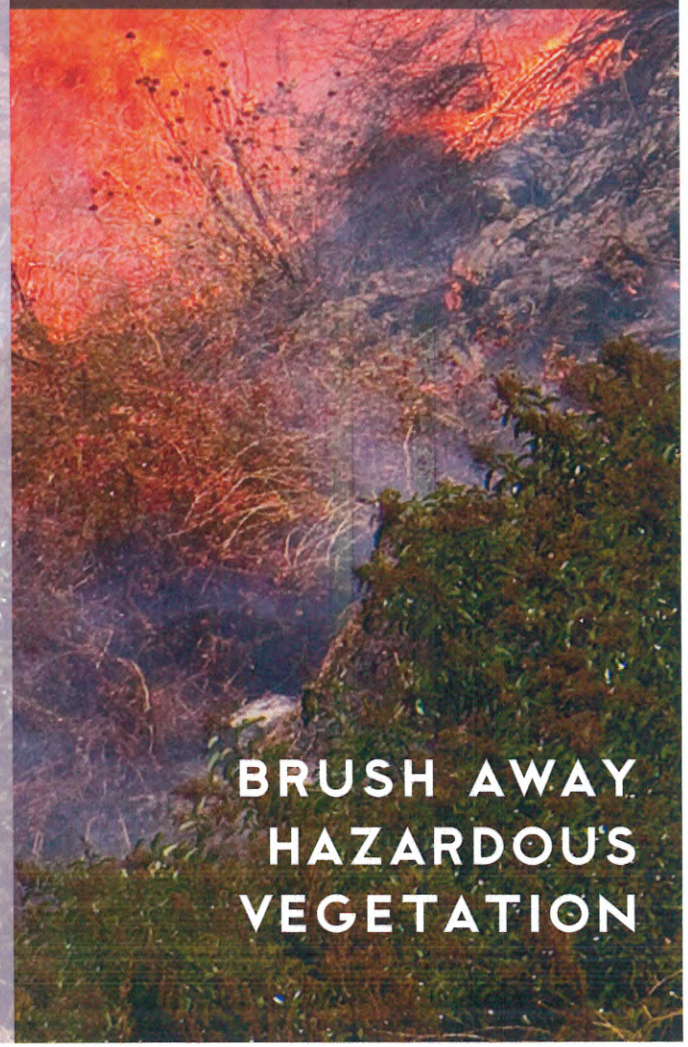
**www.cityofpasadena.net/Fire**

PFD2027 (rev2/15)

PASADENA
# FIRE
DEPARTMENT



# BRUSH AWAY HAZARDOUS VEGETATION

## FIRE PREVENTION PARTNERSHIP

A working partnership between property owners, their neighbors and the City of Pasadena is the best defense against disastrous fires. Pasadena's Hazardous Vegetation Ordinance is designed to minimize fire danger by controlling the density and location of flammable vegetation. The ordinance does not recommend indiscriminate clearing of native chaparral and other vegetation that plays an important role in erosion control. Fire hazard reduction can be achieved if all members of the Fire Prevention Partnership do their part.

The ordinance requires property owners to:

- Remove all dead trees and keep grasses and weeds mowed within 100 feet of any building (including those on adjacent property), and within 10 feet of any roadway used for vehicular travel. This does not apply to ornamental shrubbery, trees or cultivated ground cover.
- Grasses and other vegetation located more than 30 feet from any building and less than 18 inches in height may be maintained where necessary to stabilize soil and prevent erosion. Large trees and shrubs in that area should be 18 feet apart.
- Remove leafy foliage, dead wood, combustible groundcover, twigs or branches within three (3) feet of the ground from mature trees located within 100 feet of any building or within 10 feet of any roadway used for vehicular travel.
- Remove dead limbs, branches and other combustible matter from trees or other growing vegetation adjacent to or overhanging any structure.
- Maintain five (5) feet of vertical clearance between roof surfaces and any overhanging portions of trees.
- Remove any portion of a tree that extends within 10 feet of a chimney or stovepipe.
- Trim and maintain all vegetation away from curbline up to a height of 13.5 feet to accommodate emergency vehicles.

These minimum standards are established to manage both fire and erosion hazards and to protect lives and property. Pasadena Fire Department personnel may require greater protection levels in high danger areas.

## ENFORCEMENT

The goal of the Pasadena Fire Department is to establish a fire-safe community through voluntary compliance of informed property owners and residents. Fire Inspectors assess properties to determine hazard levels. Owners of property on which a hazardous vegetation condition exists are required to correct the problem. If a property owner does not comply with the ordinance, a contractor will be hired to complete the necessary work. Inspection and administration fees will be charged and the cost of correcting the hazard will be recovered as stated in the ordinance.

Enforcement involves several steps (PMC 14.29 Flammable Vegetation):

A. The Fire Department shall inspect, upon such schedule as its resources permit, those properties on which flammable vegetation is present or on which the possible presence of flammable vegetation may pose a potential fire hazard to persons or property.

B. A fee in the amount of $152.00 is charged to each property inspected. This fee will be waived if there are no violations found during the inspection. If violations are found, the fee will be waived if the property owner corrects the problem within thirty (30) days.

C. In the event that the violations identified to the property owner are not abated within the allotted time period, the property owner shall be charged a reinspection fee of $636.00 (in addition to the initial inspection fee of $152.00). These fees compensate the City for time spent on the inspections, including evidentiary photography, inspector follow up, additional documentation, and processing of misdemeanor charges if necessary.

D. Should more than two (2) reinspections of a parcel be necessitated by the failure of the property owner to comply with the provisions of this chapter, an additional fee of $305.00 will be assessed for each such additional inspection. (Ord. 6444 § 2 (part), 1991)

**ALL FEES SUBJECT TO CHANGE**

PASADENA
DEPARTMENT OF TRANSPORTATION

**DATE:** March 5, 2015

**TO:** Michael J. Beck, City Manager

**FROM:** Frederick C. Dock, Director

**SUBJECT:** **SAN GABRIEL VALLEY MOBILITY MATRIX**

In February 2014, the Los Angeles County Metropolitan Transportation Authority (Metro) Board approved preparation of Mobility Matrices for each of the subregional councils. For the purposes of the Mobility Matrix, cities with membership in two subregions selected one subregion in which to participate. As such Pasadena is included in the SGVCOG.

The San Gabriel Valley Mobility Matrix, along with concurrent efforts in other Metro subregions, includes the development of subregional goals and objectives to guide future transportation investments, an assessment of baseline transportation system conditions to identify critical needs and deficiencies, and an initial screening of projects and programs based on their potential to address subregional objectives and countywide performance themes.

The Mobility Matrix is intended to serve as a starting point for the update of the Metro Long-Range Transportation Plan (LRTP) currently scheduled for adoption in 2017 and will likely lead to a set of projects and programs to include in the potential 2016 transportation sales tax ballot measure (commonly referred to as Measure $R^2$.)

**Project Development Process**

To ensure proposed projects and programs reflect the needs and interests of the subregion, the Mobility Matrices followed a "bottoms-up" approach guided by a Project Development Team (PDT) selected by the subregion, consisting of city, stakeholder, and subregional representatives. Staff from the Department of Transportation participated in the San Gabriel Valley Mobility Matrix along with representatives from several neighboring cities. The PDT met six times over the eight-month study period to guide the creation of strategic goals and objectives, determine a subregional priority package of projects and programs, oversee the project and program evaluation process, and review and approve all work products associated with the Subregional Mobility Matrix.

**Subregional Projects and Programs**

A total of 374 transportation improvement projects were identified for the San Gabriel Valley Mobility Matrix subregion. Arterial improvements and programs compose about one-third of the project list and active transportation (pedestrian and bicycle) projects make up nearly another third. Highway and transit projects make up a significant portion of the remaining project list.

The attached exhibit from the Draft Final Report of the Mobility Matrix shows the rough order of magnitude cost estimates and categorizations of all projects formulated for the San Gabriel Valley. The list includes a preliminary assessment of anticipated investment needs and project and program implementation over the short-term (2015 to 2024), midterm (2025 to 2034) and long-term (2035 to 2045) timeframes. The Mobility Matrix does not prioritize projects, but rather serves as a basis for further quantitative analysis to be performed during the Metro LRTP update, expected in 2017.

**Pasadena Projects**

The city of Pasadena was one of the key stakeholders selected to participate in the Project Development Team for the San Gabriel Valley Mobility Matrix. Transportation Department staff identified or formulated a number of short and long term projects which are now included in the Draft Final Report of the Mobility Matrix for the San Gabriel Valley. These projects or programs are shown on the following page.

**Next Steps**

The Mobility Matrix is the first step in identifying San Gabriel Valley Mobility Matrix subregion transportation projects and programs that require funding. This important work effort serves as a "bottoms-up" approach towards updating Metro's LRTP in the future. The following represents the current and future steps in the process:

- Report Approval: The Draft Final Report of the Mobility Matrix was presented to the San Gabriel Valley Council of Government's Transportation Committee on March 4, 2015. The Committee unanimously approved a motion to recommend to the Governing Board approval of the final Mobility Matrix Study including the associated Project List, Goals, Baseline Study, and Program Assessments. The Governing Board will meet on March 19, 2015 to consider this motion.
- Prioritization: This Mobility Matrix study does not prioritize projects. Instead, it provides some of the information needed for decision makers to prioritize projects/programs in the next phase of work, and an unconstrained list of all potential transportation projects/programs in the region. In preparation for a potential ballot measure and LRTP update (as described further below), the SGVCOG would need to decide how it wants to prioritize these projects/programs assuming a constrained funding scenario.
- Metro Ballot Measure Preparations: Metro will continue working with the PDTs of all the Subregions, as it starts developing a potential ballot measure. Part of the ballot measure work would involve geographic equity determination, as well as determining the amount of funding available for each category of projects/programs and subregion of the County.
- Metro LRTP Update: The potential ballot measure would then feed into a future Metro LRTP update and be integrated into the LRTP Finance Plan. If additional funding becomes available through a ballot measure or other new funding sources or initiatives, the list of projects developed through the Mobility Matrix and any subsequent list developed by the subregion could be used to update the constrained project list for the LRTP moving forward.

| Program | Subprogram | Description |
|---|---|---|
| Active Transportation Program | Active Transportation Program | Citywide Bicycle Transportation Plan Projects |
| | Active Transportation Program | Citywide Safe Route to School Projects |
| Intelligent Transportation Systems (ITS) Programs | Arterial ITS Program | Implementation of the City's ITS Master Plan |
| | | Traffic Signal Preemption System |
| | I-210 Connected Corridors Project | I-210 Connected Corridors Pilot Project Phase 1: Route 134 to Route 605 (with Caltrans, Pasadena, Arcadia, Monrovia, Duarte, County of Los Angeles) |
| Modal Connectivity Program | Complete Streets Program | Complete Streets Project – Washington Boulevard |
| | | Complete Streets Project – Orange Grove Boulevard |
| | First/Last Mile Program | First/Last Mile Projects within one mile of Pasadena Gold Line Light Rail Stations |
| Soundwall Program | Highway Soundwalls | I-210 Soundwall Construction – North 210 Freeway, Orange Grove Boulevard to Arroyo Parkway |
| State of Good Repair Program | State of Good Repair Program | Bridge Maintenance and Seismic Retrofit Project |
| System Efficiency Program | Arterial Transportation System Management (TSM) Program | Pasadena Avenue and St. John Avenue Street Improvements |
| Transit Programs | Bus Expansion Program | Increased Local Transit Capacity for Improved Jobs Access in Pasadena |
| | | Tier 2 and Municipal Bus Operators – Add late night and weekend bus service |
| | | Tier 2 and Municipal Bus Operators – Operating dollars for expanded service |
| | | Tier 2 and Municipal Bus Operators – Real-time transit information |
| | Transit Operations Program | Construction of Transit Maintenance Facility |
| | | Pasadena Bus State of Good Repair - funding to replace transit vehicles |
| | | Tier 2 Operators – Dedicated operations and capital funding to match formula equivalency of Included and Eligible Operators |

**Table ES-4. San Gabriel Valley Mobility Matrix Summary of Rough Order of Magnitude Cost Estimates and Categorizations**

| Type/ Category | Arterial | Goods Movement | Highway | Active Transportation | Transit | Multi-Modal | Total |
|---|---|---|---|---|---|---|---|
| Short-Term (0-10 yrs) | 115 Projects $705M to $1.06B | 1 project $56M to $84M | 41 projects $1.14B to $1.69B/TBD | 75 projects $371M to $552M | 85 projects $1.43B to $2.18B | 26 projects $142M to $210M | 343 projects $3.84B to 5.76B |
| Mid-Term (11-20 yrs) | 1 projects/TBD $699M to $1.04B | $0 | 15 projects $5.62B to $8.40B | TBD projects $371M to $552M | 8 projects/TBD $1.81B to $5.14B | TBD projects $142M to $210M | 24 projects/TBD $8.63B to $15.35B |
| Long-Term (>20 yrs) | 1 projects/TBD $695M to $1.04B | $0 | 6 projects $2.61B to $3.92B | TBD projects $371M to $552M | 6 project/TBD $595M to $3.27B | TBD projects $142M to $210M | 13 projects/TBD $4.42B to $8.99B |
| **Total** | **117 projects/ TBD $2.10B to $3.14B** | **1 project $56M to $84M** | **57 projects $9.37B to $14.01B** | **75 projects/ TBD $1.11B to $1.66B** | **98 projects/TBD $3.83B to $10.60B** | **26 projects/TBD $426M to $633M** | **374 projects $16.9B to $30.12B** |

Estimated costs in 2015 dollars.

TBD for project costs indicates the cost estimation is under development or there was not enough information to estimate one or more subprograms under this project type.

Programs that are ongoing, such as State of Good Repair and Bicycle/Pedestrian, are counted in each timeframe. The total value of these programs is based on the cost estimates of the projects within the programs that were available. Many of these programs have not yet identified projects for outer years so the values of the programs for the mid- and long-term categories are based on the same levels of funding as the short-term.

The counts by time period for Highway projects and Transit projects do not sum to total because five Highway and one Transit projects are being phased and are included in two time periods.

These estimates underrepresent the operations and maintenance costs due to limitations of data availability. Costs are also underestimated due to projects and programs where cost estimate ranges are still under development.

Projects or programs that cross subregional boundaries may be included in multiple subregional project lists. Where the same projects or programs are included in multiple subregions, the cost estimates include the total estimated project cost, not the cost share for each subregion. The cost sharing will be determined as part of future efforts.

CITY OF PASADENA
HUMAN SERVICES AND RECREATION DEPARTMENT
